

Auxiliary materials and tools for resin working

H) Tools for barrels

985

Barrel cocks of cast iron

Item No.	985.007	985.020
Thread	3/4"	2"

986

Barrel cocks of polyethylene

Item No.	986.107	986.120
Thread	3/4"	2"

987

Barrel key Best.-Nr. 987.001

fits in both barrel bung holes

I) Cleaning agents

988

Mould cleaning agents

Product	Cont.	Item No.
ACMOSOL 130-167 (non-inflammable) for effectively removing of parting agent residues, without damaging the mould surfaces	5 kg	988.105
	20 kg	988.120
Acetone (inflammable, non-toxic) efficient solvent	20 l	988.220

989

Cleaning concentrate PURFIX

Tools which got dirty from resins cannot cut exactly. The residues of resin complicates also sharpening, as the abrasives get sealed. Periodical cleaning of tools by PURFIX thus will save both tools and service-costs.

Item No.	Cont.	May be thinned to
989.301	1 ltr.	5 ltr.
989.305	5 ltr.	30 ltr.
989.330	30 ltr.	180 ltr.

990

Cleaning rags cleaned and disinfected, in 25 kg bags

Item No.	990.001	990.002
Quality	coloured cotton	white linen

991

Steel wool

long uniform shavings, tough
in 200 gr. packages

Item No.	991.100	991.102
Quality	00 = fine	2 = medium

992

Skin cleaning and skin-care products

1) Hand cleaning product

Product	Cont.	Item No.
Gentilo -hand cleaning and skin-care cream, apply before beginning the work, wash and rinse dirty hands with water	95 gr	992.110
